BAOIA

The British Association of Indian Anaesthetists was founded in 2002 by a small group of anaesthetists of Indian origin working in the UK. We are committed to supporting development and improvement of anaesthetic practice in the developing world.

Our ethos is to improve networking and communication amongst colleagues and promote education and academia whilst enhancing our rich cultural heritage.

We welcome and invite EVERYONE to join us for stimulating scientific meeting and to join the rich and diverse culture and hospitality of the Indian subcontinent. This is probably the best value for money conference around.

The event is open to members, non-members, of all grades, irrespective of their origins.

5 CPD RCoA points for this Scientific Meeting.

This meeting is open to all anaesthetists.
